DETAILED ACTION

Claims 1, 3-29 are pending in the instant application. Claim 2 has been canceled by amendment.

Response to Applicant's Remarks/Amendments

Applicant's remarks and amendments filed on 12/05/2005 are acknowledged. Examiner's prior rejections are overcome in view of Applicant's remarks and amendments.

Reasons for Allowance

The present invention is directed to a process for preparing a chiral, nonracemic compound of formula (I). The closest prior art of record is Applicant's own U.S. Pat. No. 6,624,185 (Glombik et al.), which discloses the compounds of the instant application, but does not claim the process of making the compound of the instant application, in particular that of alkylation, followed by enzymatic ester formation and separation, followed by hydrolysis, and then by alkylation. Therefore, Claims 1, 3-29 are allowed.
